

TELLER CASH RECYCLERS (TCRS)

ENHANCE OPERATIONAL EFFICIENCIES, PRODUCTIVITY & SECURITY

Cash automation and recycling is a proven and effective way to quickly streamline cash operations and increase productivity.

Teller Cash Recyclers (TCRs) empower you to securely take control of cash collection, counting, and management. By eliminating time-consuming manual processes, employees have more time to focus on delivering quality services — enhancing the customer experience.

Using a customer-centric, consultative approach, the experts at BD&E can help you determine which TCR is right for you.

OUR TCR LINEUP

AST 7000

A low-cost, fit-for-purpose TCR that features a recycling capacity of up to 4,000 notes.

AST 7016

The most capacious and flexible TCR available. Handles and recycles up to 11,200 notes.

AST 9000

An all-new cassette-based TCR designed for environments where cash processing volumes are high.
