

ATM AS A SERVICE

The Future of Banking

ATM As a Service is an ATM outsourcing model that offers full-service, worry-free management of your ATM network. Regardless of the size of your community financial institution, this turnkey solution can help simplify your business strategy and improve your bottom line.

ATM CHANNEL CHALLENGES

Running an ATM channel is complex, time-consuming, and expensive. ATM management puts significant administrative burdens on your community financial institution — limiting your ability to focus on other key areas of your business. Common challenges include:

- ⊖ Unpredictable capital expenses
- ⊖ Staffing demands of 24/7 monitoring, maintenance, and management
- ⊖ Lack of time and resources to focus on other key business priorities
- ⊖ Compliance with rapidly evolving regulations
- ⊖ Managing security risks
- ⊖ Keeping up with the latest technology, including hardware, software, and other tools

WHAT IS INCLUDED?

- Back Office Operations
- Transaction Management
- Cash Management
- ATM Operations
- Software Management
- ATM Deployment

TRANSFORM YOUR BUSINESS

ATM As a Service offers an array of benefits designed to transform your business. Reduce capital costs, control operating expenses, and eliminate the hassle of risk and regulatory compliance.

SIMPLIFIED STRATEGY

Focus on core business strategy instead of ATM management

REDUCED COSTS

Convert ATM costs from a capital expense to a predictable operating expense

IMPROVED EXPERIENCE

Enhance your customer experience and show greater value

INCREASED EFFICIENCY

Increase operational efficiencies by eliminating the need for multiple vendors
