

PHYSICAL SECURITY

HELPING YOU SAFEGUARD YOUR ASSETS

In addition to cybersecurity risks, community financial institutions face a variety of physical threats such as intruders, fire, theft, and fraud. Vaults and safe deposit systems are an effective way to protect your assets and should be part of your overall security strategy.

BD&E offers a wide selection of under counter safes, highly secure cash vaults, currency lockers, and secure management chests to meet your unique needs. Our experienced professionals specialize in design, specification, and expert installation, so you can maximize security without compromising design.

OUR CLIENT-CENTRIC APPROACH TO PHYSICAL SECURITY

IDENTIFY VULNERABILITIES

We assess the physical risks and potential threats facing your community financial institution.

TAILOR HARDWARE SOLUTIONS

We recommend best-in-class hardware solutions to mitigate risk and potential threats.

PROTECT YOUR ASSETS
